

Rail

Speed, frequency and reliability make train travel a very competitive, cost and carbon efficient option for the time-pressed traveller.

Enjoy access to a full range of UK rail tickets, including fares that are not available at the station on day of travel.

By consolidating data from across the Humanitarian, Faith and Education sectors, we have been able to engage with individual Train Operating Companies to offer rates and services to meet all your rail requirements.

Our online rail-booking tool, KT Rail Booker, provides access to a full range of UK rail tickets, including fares that are not available at the station on day of travel.

In the case of more complex rail travel requirements, international rail or group rail travel, our dedicated team is on hand to simplify the process for you. You can book rail journeys with Key Travel anywhere in the world - from Eurostar within Europe, to rail passes as far afield as Japan, Canada and New Zealand.

KT Rail Booker

Powered by our partners at thetrainline.com, KT Rail Booker provides you with many excellent, easy-to-use features including:

- **Cost Saving Fare Display**
The fare display highlights the cheapest fare available for all classes of travel.
- **Holding tickets**
You can hold a ticket in the basket for up to 9 hours. This guarantees the fare whilst giving you the time to seek any pre authorisation, if necessary, before purchase.
- **Last minute ticket booking**
Ability to book and order tickets up to 2 hours before travel.

2 hours

Book last minute tickets or amend a seat reservation on flexible tickets up to 2 hours prior to travel

- **Ticket amendments**
Advance tickets can be changed before the original travel date booked, as long as the new travel date falls within 1 month of the original date. The process requires the original ticket to be refunded less a small cancellation fee. Where a new ticket is purchased price will depend on availability.
- **Seat Reservations**
Reserve a quiet coach, power socket or table; select the seat that best suits you ensuring a comfortable journey. Add or amend a seat reservation on flexible tickets up to 2 hours before departure.
- **Print Your Own (PYO)**
There's no need to wait for tickets to arrive in the post or to wait in queues at the train station. You can now print your own rail tickets on select services and ticket types.
- **Peak train indicator**
Shows when peak travel starts and finishes so that bookers/travellers can plan their meetings around off peak travel and save money.
- **Add to Calendar tool**
Click on the 'add to calendar' tool to automatically add journey details and a ticket collection reference to your email calendar (and that of others travelling with you).

Controlling costs

Key Travel's versatile and intuitive Management Reporting tool allows designated staff to obtain a wide range of reports, providing total visibility of expenditure and the types of tickets being purchased.
