

## Hotel bookings made simpler

The world of hotels is complex. There are a multitude of rates, payment types and booking methods available and it's often challenging to understand the best option. At Key Travel we have simplified this for you.

# 400,000

We have access to competitive rates at over 400,000 hotel properties worldwide.

### **All in one place**

With access to competitive rates at over 400,000 properties worldwide, Key Travel is able to book any type of hotel for you - whether contracted directly by your organization, a specially negotiated rate, or standard rack rate.

### **Available to book online**

Our hotel program is available to book online, 24/7. All the rates that our Consultants can access are available to book, and your negotiated corporate rates can also be loaded into the system. You can search by city, specific location and zip. Alternatively, an easy to navigate map can be used to search. Pictures, details of facilities and independent reviews are also available to view.

### **Room types**

Whether booked with a Consultant or online, all available room types are shown,

including smoking or non-smoking and more specific room types such as club rooms.

### **Incidentals & special requests**

With many hotels we can include breakfast and other incidental charges such as parking and WiFi in the rate. Likewise, special requests such as late arrival or extended check out can be accommodated.

### **Multiple payment options**

We are able to provide multiple payment options subject to the rate type, including rates that can be prepaid by Key Travel and passed on to your organization, rates billed directly to your organization, and those paid locally. Whether enquiring with a Consultant or booking online, payment information will be made clear.

# 24/7

Key Travel's hotel content is available on and offline providing 24-hour access to search options.

#### Flexibility

Our agreements with many hotels mean changes or cancellations the day before arrival, or even the same day, are possible for a small fee.

#### What next?

For more information on our hotel programs, please contact your Key Travel representative. If you don't yet have a representative, please use the contact information below. We'll be happy to provide further information and live demonstrations on our rates and services, either in person or via webinar.
